

STEDI-FLEX™ Rotating Vibratory Feeder

This Dynamic Air STEDI-FLEX™ Vibratory Feeder is powered by a vibrating linear air motor and is used to convey foundry sand to two (2) different core

sand mixers from a single surge hopper which is fed by a dense phase pneumatic conveying system.

Dynamic Air Conveying Systems® and STEDI-FLEX™ are trademarks of Dynamic Air Inc., St. Paul, Minnesota.

U.S. and Foreign Patents Pending
